

Comment mettre en place une iladnav :

Dans le css :

```
#iladnav {
    margin: 0 auto;
    height: 18px;
    color: #fff;
    width: 440px;
}

#iladnav ul {
    margin: 0;
    padding: 0;
    list-style-type: none;
}

#iladnav ul li {
    float: left;
    margin: 0 2px;
    font-weight: bold;
    background: url(/theme/images/header_menu.png) no-repeat 100% -28px ;
}

#iladnav ul li a {
    display: block;
    margin-right: 12px;
    padding: 0 12px 0 24px;
    background: url(/theme/images/header_menu.png) no-repeat;
    text-decoration: none;
    color: #fff;
}

#iladnav ul li.currentpage,
#iladnav ul li.currentpage a,
```

```
#iladnav ul li:hover,  
#iladnav ul li:hover a {  
    background-image:  
url(/theme/images/header_menuselected.png);  
    color: #000;  
}
```

Dans le html :

```
<div id="tMain">  
    <div id="iladnav">  
        <ul>  
            <li class="currentpage"><a href="/"  
class="currentpage"> Accueil </a></li>  
            <li><a  
href="http://www.infolibreadom.com/nos-services/"> Nos  
Services </a></li>  
            <li><a  
href="http://www.infolibreadom.com/nos-tarifs/"> Nos Tarifs  
</a></li>  
            <li><a  
href="http://www.infolibreadom.com/contact/"> Contact  
</a></li>  
        </ul>  
    </div>  
<div id="tHeader">
```
